

Meterra SYSTEMS
Monitoring & Automation

Meterra Systems offers a simple way to monitor and control pumps. Built for rural sites, the system uses NB-IoT connectivity to **reduce manual On/Off controls**, improve water visibility and help prevent dry tanks, overflow and unnecessary pump run time.

\$850
+Plan

AC Pump Controllers

- Suitable for **AC 240V applications**
- Remote On/Off Control from your phone
- Create Schedules
- Connects every 5min
- **Automate & Sync** with Tanks Sensors
 - Turn on/off at certain tank %
- Know when your pump is running
- Power monitoring options

\$990
+Plan

Dry Contact Controllers

- Suitable for **AC & 3 Phase Solar Pumps**
- Remote On/Off Control from your phone
- Custom configurations
- Can be used with generators
- Create Schedules
- Connects every 5min
- **Automate & Sync** with Tanks Sensors
 - Turn on/off at certain tank %

DC Solar Pump Controllers

- Suitable for **DC Solar Pumps**
- Remote On/Off Control from your phone
- Create Schedules
- Connects every 5min
- **Automate & Sync** with Tanks Sensors
 - Turn on/off at certain tank %

Quote

Valve Controllers

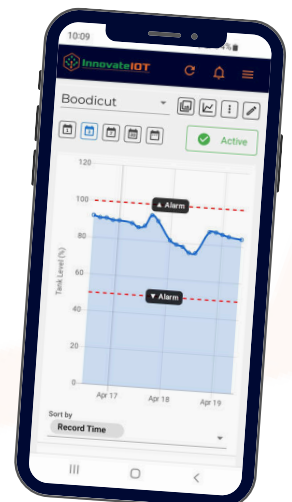

- Battery & Solar Powered
- Connection every 5 min
- **OPEN & CLOSE via phone**
- Manual open/close on site
- Set schedules
- Automate via other devices
- Multiple valve sizes

Automate Controllers with Triggers from Tank Sensors & More!

Ultrasonic Tank Level Sensor

- Sensors are connected to the **NB-IOT network**
- Uses **ultrasonic** waves to accurately measure the distance between the device and the liquid
- Detection range 250mm - 7500mm
- Battery life is between 2+ yrs
- Sensor measurements are taken every **60 minutes**
 - More frequent readings can be requested
- IP65 & IP66 Waterproof Enclosures

\$288
+Plan

Connectivity Plans

- \$14 a mth per controller
- Covers data, dashboard access & tech support
